

MEASURING TIPS:

1. Use a metal measuring tape, not a ruler or cloth tape measure.
Write your measurements in the spaces provided and double-check them!
2. For all top of the bed products, measurements should be taken with the bed fully dressed with maximum amount of sheets and blankets used. Otherwise, the covering may be too short.
3. Length and fit will vary according to the amount of under coverings.
4. For Duvet Covers, please supply the actual width and length of the insert you will be using.
5. For Side Drop or Comforter/Coverlet Drop, place a yardstick, cardboard or other flat object on top of bed to provide a point from which to measure.
